

RONAK SHARMA

Full Stack Software Engineer • Team Lead

Location: Ramganjmandi, Kota, Rajasthan **Phone:** +91-8955134408 **Email:** ronaksharma2350@gmail.com

Portfolio: [ridduu-portfolio.vercel.app](#)

PROFESSIONAL SUMMARY

Full Stack Software Engineer and technical team lead with 3+ years of experience delivering scalable web, mobile, and desktop applications. Proven proficiency in modern JavaScript, Python, Flutter, and relational database systems. Experienced in architecting secure RESTful APIs with JWT authentication, orchestrating Linux VPS deployments via Nginx, and shipping production applications on Google Play Store.

CORE COMPETENCIES & TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Dart, SQL	Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap, Responsive UI
Backend: Node.js, Express.js, Flask, Django, REST APIs, JWT, Prisma ORM	Mobile & App: Flutter, Android Studio, Google Play Console
Databases: PostgreSQL, MS SQL Server, SQLite, MongoDB, Firebase	DevOps & Tools: Linux VPS, Nginx, Git, GitHub, Postman, API Testing

PROFESSIONAL EXPERIENCE

Software Engineer (Team Lead) • 3Handshake Techsoft Pvt. Ltd. Jan 2024 – Present

- Lead cross-functional engineering team in the end-to-end delivery of 5+ production-grade web and mobile applications.
- Develop full-stack enterprise solutions utilizing React.js, Flutter, Node.js, Python, and PostgreSQL.
- Architect secure backend micro-modules with JWT authentication, Role-Based Access Control (RBAC), and Prisma ORM.
- Deploy, configure, and manage high-availability web services on Linux VPS environments utilizing Nginx reverse proxies.
- Mentor junior developers, conduct structured code reviews, and maintain delivery milestones.

Full Stack Developer Intern • Triops Infotech Feb 2023 – Jun 2023

- Engineered interactive user interfaces using React.js and maintained content-driven WordPress websites.
- Developed backend data endpoints and integration modules with Python (Flask / Django).
- Participated actively in QA cycles, API testing, debugging, and production deployments.

KEY PROJECTS

IT Asset Management System	React.js • TypeScript • Node.js • Express.js • PostgreSQL • Prisma
- Built enterprise asset management platform tracking hardware, vendors, clients, users, AMC/FMS, and audit logs. - Implemented secure JWT authentication, granular RBAC, dynamic reporting, document attachments, and VPS deployment.	
Jain Dharohar Mobile Application	Flutter • Python • REST APIs • Play Store
Published cross-platform production app directly to the Google Play Store with responsive UI and real-time backend API synchronization.	
Apna Backup	React.js • Python • Desktop Backup Solution
Designed and built an automated data management utility supporting incremental and differential backup pipelines with a dedicated web control portal.	

EDUCATION

Bachelor of Vocational (IT & Networking) 2021 – 2024
